

JEWELRY SAFETY

AFOSH STD 91-501, Chapter 9

1. Do workers remove jewelry when they perform activities that involve climbing, ascending, or descending, or where they could fall or jump from an elevated surface? (Reference **9.1.1.1.**)

2. Do workers remove jewelry when performing materials handling activities? (Reference **9.1.1.2.**)

3. Do workers remove jewelry when performing work that exposes them to energized electrical circuits? (Reference **9.1.1.3.**)

4. Is any jewelry that presents a potential for snagging, catching, pulling, tearing, or loss evaluated and restricted if it presents a hazard to the worker or operation? (Reference **9.2.**)
